

DALE S. BEDANIA bedaniadale.vercel.app

FULL STACK WEB DEVELOPER | UX/UI DESIGNER | IT SPECIALIST

(0921) 082 8947 - dale.bedania10@gmail.com - <https://www.linkedin.com/in/dale-bedania/> - github.com/bedaniadale

Dedicated and results-driven Web Developer with a strong foundation in full-stack development, recognized for academic excellence and real-world project leadership. I began coding at 13, which led to graduating as the Most Outstanding Student and Most Outstanding On-the-Job Trainee in BSIT Web Development at Holy Angel University. During my internship, I was personally chosen by the Head of the Institutional Database Management Office to independently design and develop a custom employee portal—showcasing my ability to deliver complete solutions with minimal supervision.

EDUCATION

Holy Angel University

April 2025 Bachelor of Science in Information Technology, Web Development

- Most Outstanding Graduating Student
- Most Outstanding On-The-Job Trainee
- Dean's Lister and President's Lister (2021-2025)
- Code Geeks' Organization President

EXPERIENCE

Holy Angel University

June 2024 - November 2024

Full Stack Web Developer,
Internship

Angeles City, Pampanga

- Developed a full-featured Employee Portal for Holy Angel University's IDMO as a solo project, covering system analysis, UI/UX design, backend logic, and deployment.
- Handled end-to-end deployment and release of the application

NILEliteGears & CompleteVitalityLife

April 2024 - July 2024

Graphic Designer (Freelance)
Remote

- Designed product previews for marketing and e-commerce purposes, showcasing the brand's offerings.
- Created custom graphics, banners, and promotional images for social media platforms.
- Optimized visuals for various social media platforms to maximize engagement.

Pina Realty Management

Project-based

Full Stack Web Developer
Remote

- Built a custom CMS and records management portal for a real estate company, enabling centralized property listings, client records, and deal tracking.
- Designed and implemented the full stack solution—including UI/UX, backend logic, and database management—ensuring a streamlined and user-friendly experience.
- Oversaw end-to-end deployment and release, delivering a production-ready system tailored to the client's operations.

Direct Client (Australia-based Client)

July 2025 – August 2025

Full Stack Web Developer

Remote

- Served as the direct full-stack developer for an Australia-based client, taking ownership of all assigned projects from planning and design through development and deployment.
- Delivered tailored solutions across multiple initiatives, acting as the primary point of contact and ensuring end-to-end execution meet client expectations.

PROJECTS

Holy Angel University IDMO Employee Portal

Technologies: Laravel, Tailwind CSS, MySQL, Hostinger

- Employee Portal for Holy Angel University, streamlining HR processes and data management.

Kayantabe

Technologies: Laravel, Tailwind CSS, MySQL, Hostinger

- A dynamic volunteerism web platform designed to connect passionate individuals with local community initiatives.

Umbra

Technologies: Laravel, React.js, Tailwind CSS, MySQL

- A web application that connects students and parents with nearby tutors. It offers a seamless platform for finding, booking, and managing tutoring sessions — designed to make learning more accessible and personalized.

SPUR Mobile Application

Technologies: React Native, Supabase

- A mobile application that builds a sports community by connecting athletes, teams, and enthusiasts. Features include user profiles, event management, team creation, and real-time updates — designed to foster collaboration and make organizing sports more accessible.

Created a professional website to establish a strong brand identity for medical-grade products. Focused on a clean, trustworthy design that communicates product quality while enhancing credibility and customer engagement.

The Zepatide

Technologies: Figma, Laravel, Tailwind CSS

- A professional website to establish a strong brand identity for medical-grade products that communicates product quality while enhancing credibility and customer engagement.
