Cloud and Tools: Git, GitHub, Vercel, Netlify, AWS, Cloudflare Pages, Hostinger, Vitest, Unit Testing, Postman, Jira, Agile, Figma, Stripe

PROFESSIONAL EXPERIENCE

Freelance Full Stack Web and Mobile Developer

Self-Employed, Direct Client Engagements | Remote | 2025 - Present

- Deliver production web and mobile applications as sole developer for clients including Pina Realty Management, Complete Vitality Life, The Zepatide, SPUR and Umbra, owning scoping, UI/UX, front end, back end, database and deployment.
- Built a custom real estate CRM with React and Supabase (PostgreSQL) to manage property listings, client records and transactions, replacing error-prone spreadsheets with a single source of truth.
- Developed PinaAi, an AI assistant on the CRM using the Google Gemini API: natural-language queries over leads, deals and mail, a daily brief, and AI agents gated behind a human approval queue with usage, cost and activity audit logs.
- Engineered a content generation tool (React, Vite, Supabase) that turns one Excel upload into a month of on-brand Instagram carousels, with auto-fitting typography, real-time share links via Supabase Realtime and batch export.
- Built a solar quoting application in React and TypeScript with a pure TypeScript pricing engine, Excel-accurate rounding (decimal.js), 27 Vitest unit tests, a manager approval workflow and five generated PDF documents.

Full Stack Web Developer

Direct Client (Australia) | Remote | July 2025 - August 2025

- Served as sole full stack developer and primary client contact, owning projects from planning and design through development and deployment.
- Translated business requirements into shipped features across time zones with self-managed scope, communication and release timelines.

Full Stack Web Developer Intern

Holy Angel University, Institutional Database Management Office | Angeles City | June 2024 - November 2024

- Selected by the Head of the IDMO to independently design and build a custom Employee Portal with minimal supervision.
- Delivered a Laravel and MySQL web application covering system analysis, UI/UX design, back-end logic, schema design and role-based access control for HR staff and employees.

- Replaced manual, document-heavy HR tracking with a searchable single source of truth, making employee records retrievable in seconds.
- Managed production deployment and SSL on Hostinger; named Most Outstanding On-the-Job Trainee of the program.

Graphic Designer

Complete Vitality Life | Remote | 2026

- Design on-brand Instagram carousels, social media graphics and marketing assets for a health and longevity brand using Figma, Adobe Photoshop, Adobe Illustrator and Canva.

Graphic Designer (Freelance)

NILEliteGears and Complete Vitality Life | Remote | April 2024 - July 2024

- Designed product previews, banners and promotional graphics for marketing and e-commerce channels, optimized per platform for social media engagement.

SELECTED PROJECTS

Rosetta Spreadsheet-to-App Workbench | React, TypeScript, SheetJS, HyperFormula, Zod, Vitest

Converts Excel workbooks into React forms; custom formula parser and evaluator verified by a parity test harness across 315 cell comparisons.

SPUR Mobile App and Landing Page | React Native, JavaScript, Firebase, React, Supabase

Location-based sports matching app with skill matching, local events and real-time updates, plus a conversion-focused landing page.

Kayantabe and Umbra | Laravel, PHP, Tailwind CSS, MySQL

Volunteerism platform (project lead) and tutoring booking marketplace, both with responsive, mobile-first UI.

EDUCATION

Bachelor of Science in Information Technology, Major in Web Development

Holy Angel University | Angeles City, Pampanga | April 2025

- Most Outstanding Graduating Student and Most Outstanding On-the-Job Trainee, BSIT Web Development
- Dean's List (2022 - 2024); President's List; HAFRD Academic Scholarship; President, Code Geeks (A.Y. 2023 - 2024)

CERTIFICATIONS

- Red Hat Certified System Administrator (RHCSA), Red Hat, 2021 | CCNA Cyber Ops, Cisco
- Google Analytics Certification, Google, 2023 | SEO I and SEO II, HubSpot Academy, 2023
